Introducción

La Subsecretaría de Prevención y Promoción de la Salud (SPPS), durante el periodo 2012 - 2017 y hasta la fecha ha llevado a cabo la evaluación Caminando a la Excelencia, evaluación que desde su inicio en 2001 ha sido piedra angular en materia de monitoreo y transparencia, además de constituir el punto de encuentro para identificar áreas de oportunidad y estímulo de la competitividad estatal en los diversos programas sustantivos de esta subsecretaría.

Durante este periodo cabe recordar que se implementó la más amplia reestructura de esta evaluación, de tal modo que en 2013, se realizó una revisión extensa de cada uno de los indicadores evaluados, misma que se implementó en 2014 y posterior a ella, se observó un cambio significativo, esencialmente se redujo el número de empates entre los primeros lugares y se tradujo en una evaluación retadora en todos los programas evaluados.

En 2017, se implementó nuevamente una revisión de los indicadores en cada uno de los programas evaluados por Caminando a la Excelencia y se reorganizó el proceso de envío de información, además de que se desarrolló la primer versión de la herramienta informática HeCamex, la cual consiste en un archivo electrónico local que permite a los programas realizar la evaluación de manera sencilla y además cuenta con la funcionalidad necesaria para que el usuario obtenga el Índice de Desempeño en el mismo momento en el que se captura la información. Esta característica ha venido a incrementar significativamente la oportunidad de la información y la emisión de los boletines informativos.

Caminando a la Excelencia ha sido y es una estrategia de evaluación que se mantienen en constante adecuación, acorde con la realidad cambiante que exige la constante revisión de su operatividad y es precisamente por su gran valía que fue reconocida por el **Consejo Nacional de Evaluación de Política de Desarrollo Social, CONEVAL**

con el reconocimiento **Buenas prácticas de monitoreo y evaluación 2016.**

Es en este sentido la fortaleza de Caminando a la Excelencia, radica en su metodología que mediante análisis matemático de vectores permite el cálculo del Índice de Desempeño para indicadores de distinta naturaleza bajo el precepto de que **Siempre hay algo que mejorar.**

Durante 2017, Caminando a la Excelencia, monitoreó 30 *Programas de Acción que en su conjunto evalúan un total de 213 indicadores:*

Sistema Nacional de Vigilancia Epidemiológica, Programa del SINAVE Componente Red de Laboratorios, Programa de Prevención y Control de Dengue, Programa de Prevención y Control de Enfermedad de Chagas, Programa de Prevención y Control de Paludismo, Programa de Prevención y Control de Diabetes Mellitus, Programa de Obesidad y Riesgo Cardiovascular, Programa de Unidades de Especialidades Médicas en Enfermedades Crónicas (UNEMES), Sistema de Información en Crónicas, Programa de Envejecimiento, Programa de Eliminación de la Lepra, Programa de Prevención y Control de la Tuberculosis, Programa de Prevención de Enfermedades Diarreicas Agudas y Cólera, Programa de Prevención y Control de Rabia, Programa de Prevención, Detección y Control de los Problemas de Salud Bucal, Programa Planificación Familiar y Anticoncepción, Programa de Salud Materna y Perinatal, Programa Cáncer Cérvico Uterino, Programa Cáncer de Mama, Programa de Prevención y Atención de la Violencia Familiar y de Género, Programa de VIH, SIDA E ITS, Programa de Vacunación Universal, Programa Nacional de Salud en la Adolescencia, Programa Nacional de Salud de la Infancia, Programa de Cáncer en La Infancia y Adolescencia, Programa Para la Prevención y Atención de las Adicciones, Programa de Promoción de la Salud y Determinantes Sociales, Programa de Alimentación y Actividad Física, Programa Entornos y Comunidades Saludables y Programa Para la Prevención de Accidentes

En el presente documento, se resumen los resultados de la evaluación del año 2017, estos son presentados de la siguiente manera:

- Resultados de la evaluación 2017, Nacional.

Se describen los resultados de evaluación de forma integral conjuntando los 30 programas evaluados en las 32 entidades federativas, y la comparación de estos resultados con el año previo, así mismo se muestran los resultados nacionales por programa y su nivel de diferencia en el contexto nacional como su progreso o retroceso entre estos dos años.

- Resultados de la evaluación 2017, por Entidades Federativas.

En esta sección se describen el desempeño de los treinta programas evaluados cómo su nivel de avance o retroceso comparativamente con al año anterior; la información se desglosa por cada una de las treinta y dos entidades federativas.

- Resultados de la Evaluación 2017, por Programa de Acción.

En esta sección se presentan las evaluaciones de los treinta programas mostrando en detalle los resultados de cada uno de los indicadores que se utilizaron para evaluar cada uno de los programas.
